Spain, Europe and the Wider World 1500-1800

John H. Elliott

Spain, Europe and the Wider World 1500-1800 John H. Elliott

When J. H. Elliott published *Spain and Its World, 1500–1700* some twenty years ago, one of many enthusiasts declared, “For anyone interested in the history of empire, of Europe and of Spain, here is a book to keep within reach, to read, to study and to enjoy” (*Times Literary Supplement*). Since then Elliott has continued to explore the history of Spain and the Hispanic world with originality and insight, producing some of the most influential work in the field. In this new volume he gathers writings that reflect his recent research and thinking on politics, art, culture, and ideas in Europe and the colonial worlds between 1500 and 1800.

The volume includes fourteen essays, lectures, and articles of remarkable breadth and freshness, written with Elliott’s characteristic brio. It includes an unpublished lecture in honor of the late Hugh Trevor-Roper. Organized around three themes—early modern Europe, European overseas expansion, and the works and historical context of El Greco, Velázquez, Rubens, and Van Dyck—the book offers a rich survey of the themes at the heart of Elliott’s interests throughout a career distinguished by excellence and innovation.
