C. S. Lewis s Perelandra: Reshaping the Image of the Cosmos

Judith Wolfe, Brendan Wolfe

C. S. Lewis s Perelandra: Reshaping the Image of the Cosmos Judith Wolfe, Brendan Wolfe

The only single-volume study of an important Lewis novel

C. S. Lewis considered his novel *Perelandra* (1943) among his favorite works. A triumph of imaginative science fiction writing, *Perelandra* part of Lewis's Space Trilogy is also theologically ambitious. *C. S. Lewis s Perelandra: Reshaping the Image of the Cosmos* argues that point and also how the novel synthesizes the three traditions of cosmology, mythology, and Christianity. The first group of essays considers the cosmological implications of the world Lewis depicts in *Perelandra* while the second group examines the relationship between morality and meaning in Lewis's created cosmology of the world of *Perelandra*.

This work brings together a world-class group of literary and theological scholars and Lewis specialists that includes Paul S. Fiddes, Monika B. Hilder, Sanford Schwartz, Michael Travers, and Michael Ward. The collection is enhanced by Walter Hooper's reminiscences of his conversations with Lewis about *Perelandra* and the possible provenance of the stories in Lewis's imagination.

C. S. Lewis scholars and devoted readers alike will find this volume indispensable to the understanding of this canonical work of speculative fiction.
