Families or individuals who don't have the luxury of having a good gardening spot in their homes may find that indoor gardening may be the best option. Even during the winter season when most outdoor plants can't grow, you can still enjoy your favorite veggies by gardening inside the house. Plants don't just provide food, but are also excellent filters for pollution and are therefore good indoor companions. What's even more interesting is that most indoor plants don't take up that much space, which means even if all that you have is a windowsill, you can still grow them. This guide contains a collection of the best gardening projects to help you get started with your indoor gardening adventures.
