Planet Of The Greeks: The Great Time-Warp Of History

Meres J. Weche

Planet Of The Greeks: The Great Time-Warp Of History Meres J. Weche

Amid the continuing raging debate over the origins of Western civilization, Planet of the Greeks interjects some vital new perspectives into this ever-expanding controversy. The author inaugurates a brand new era of archaeological detective work characterized by an uncommonly daring, and breathtakingly multi-disciplinarian, approach to ancient history. Inspired by the epoch-making revision of ancient history presented in Dr Immanuel Velikovsky's "Ages in Chaos" book series, Planet of the Greek's main thesis is that the accepted chronological framework for the history of the ancient world is gravely flawed and that a revised model must be offered.
