Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study any chess opening and at the same time improve your general chess skills and knowledge.

The Nimzo-Larsen Attack is an ideal opening choice for players keen to avoid mainline theory but still wanting to set their opponents problems from the outset. Lakdawala studies the typical plans and tactics for both sides, offers repertoire options for White, provides answers to all the key questions and tells you everything you need to know about playing the Nimzo-Larsen Attack.
