Usable Thoughts: Climate, Water and Weather in the Twenty-first Century Michael H. Glantz, Qian Ye

Short quotations often are used to stimulate thought and evoke discussion. The intention of this book is no less ambitious. Drawing upon a series of quotations taken from the World Meteorological Organization-sponsored publication, *Climate: Into the 21st Century*, the authors encourage thought and discussion on the earth's climate system, including its interrelation to human society and the environment, the impact of climate variability, and climate extremes and change.
