**A Tale of Two Cities (Wisehouse Classics - with original Illustrations by Phiz)** Charles Dickens  
*A TALE OF TWO CITIES* (1859) is a novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel depicts the plight of the French peasantry demoralized by the French aristocracy in the years leading up to the revolution, the corresponding brutality demonstrated by the revolutionaries toward the former aristocrats in the early years of the revolution, and many unflattering social parallels with life in London during the same period. It follows the lives of several characters through these events. *A Tale of Two Cities* was published in weekly installments from April 1859 to November 1859 in Dickens's new literary periodical titled *All the Year Round*. All but three of Dickens's previous novels had appeared only as monthly installments. With sales of about 200 million copies, *A Tale of Two Cities* is the bestselling novel in history.

"It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light, it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us, we were all going direct to Heaven, we were all going direct the other way - in short, the period was so far like the present period, that some of its noisiest authorities insisted on its being received, for good or for evil, in the superlative degree of comparison only."
