Children Of The Greys Bret Oldham

One calm autumn night, in a house surrounded by farm land in rural Southern Illinois, a young five year old boy wakes to see a bright light shining through the window. As he pulls the curtains back to look for the cause of the strange light, he comes face to face with a hideous looking alien creature. What followed next began a life time of abductions by these strange alien beings. In *Children Of The Greys*, a true story of his numerous alien encounters, author Bret Oldham relives many of these traumatic alien abduction experiences. From mind control experiments, sexual interludes, healings, unexplainable scars, hybrids, an incredible multiple abduction with another witness and a fetus being taken, to the paranormal connection and more; all described in great detail. Theories and insights into the possible alien agenda by some of the world's leading UFO and alien abduction experts are also presented here. Memories that had been suppressed for years by the aliens surfaced after receiving therapy for a series of anxiety attacks. Memories that were kept secret for decades are now revealed for the first time in this very personal, thought provoking account of one man's journey through the enigma of the alien abduction phenomena.
