Maci strives for one thing in life—anonymity. With her writing career in full bloom, all she wants is to work in peace while concealing her true identity from the public. Though readers love the science fiction worlds she creates, Maci knows that gender stereotypes could damage her career if she is exposed as a woman.

Liam is the envy of all gamers as the lead developer for nZone Studios. Over time, he builds walls around himself, keeping people at arm's length who only gravitate to him for his material possessions rather than who he is as a person.

With thick barriers around their hearts and their past looming in the shadows, Liam and Maci challenge each other by slowly peeling away their protective layers and seeing each other for who they really are. It doesn't take long after their chance meeting at a coffee shop for them to become one another's game changer.

Note: If a strong, quirky heroine makes you roll your eyes, If you hate sexy heroes who would rather lose a game than the woman of their dreams, if fast-moving relationships and hot sex aren't your thing, if you can't stand when humor is used to cover up life's awkward moments, if cliffhangers anger you beyond comprehension... this series is not your cup of tea. This contemporary romance novel is the first book in the Playing Games series and contains adult situations meant for ages 18+.
