The 4th Reich - 2nd Edition: Have Nazi Ethics & Tactics Invaded Contemporary America Mr. Kenneth W Mays

What are 'Traditional Values'? What are 'Family Values'? What are your values? How does a person or an entire society develop its values? Beginning with a review of the very 'Nature of Man'...this book takes a close look at those factors which all combine to impact one's values; including culture, pop-culture and the media. Equally important is a look at how the Nazi ethic of a 'Supremacy Doctrine' has invaded the United States. That supremacy doctrine is called the 'Secular Progressive' movement. It's goal...to "Fundamentally change America." The Progressive's tactics exactly mirror those tactics developed and used by the Nazi's...slick propaganda, repeated lies, promoting racial division, pseudo-science, Social Darwinism and emotional laden buzz words such as Hope and Change...Social Justice...and Lord -&-Savior." All of which was either said by or about, Adolph Hitler. The author also takes you on a personal journey. Through one event after another; spread out over six decades, Mr. Mays holds himself up for examination and an opportunity for you to recall those moments from your past that have all collided with the 'times' to form that being called 'You'.
