The Manga Guide to Statistics Shin Takahashi, Ltd. Trend-Pro Co.

Think you can't have fun learning statistics? Think again.

The Manga Guide to Statistics will teach you everything you need to know about this essential discipline, while entertaining you at the same time. With its unique combination of Japanese-style comics called manga and serious educational content, the EduManga format is already a hit in Japan.

In *The Manga Guide to Statistics*, our heroine Rui is determined to learn about statistics to impress the dreamy Mr. Igarashi and begs her father for a tutor. Soon she's spending her Saturdays with geeky, bespectacled Mr. Yamamoto, who patiently teaches her all about the fundamentals of statistics: topics like data categorization, averages, graphing, and standard deviation.

After all her studying, Rui is confident in her knowledge of statistics, including complex concepts like probability, coefficients of correlation, hypothesis tests, and tests of independence. But is it enough to impress her dream guy? Or maybe there's someone better, right in front of her?

Reluctant statistics students of all ages will enjoy learning along with Rui in this charming, easy-to-read guide, which uses real-world examples like teen magazine quizzes, bowling games, test scores, and ramen noodle prices. Examples, exercises, and answer keys help you follow along and check your work. An appendix showing how to perform statistics calculations in Microsoft Excel makes it easy to put Rui's lessons into practice.

This EduManga book is a translation from a bestselling series in Japan, co-published with Ohmsha, Ltd. of Tokyo, Japan.

From reader reviews:

Neil Williams:

What do you consider book? It is just for students as they are still students or the item for all people in the world, exactly what the best subject for that? Only you can be answered for that question above. Every person has different personality and hobby for every other. Don't to be pushed someone or something that they don't want do that. You must know how great as well as important the book The Manga Guide to Statistics. All type of book can you see on many resources. You can look for the internet solutions or other social media.

Susan Gagnon:

Here thing why this kind of The Manga Guide to Statistics are different and reliable to be yours. First of all studying a book is good however it depends in the content from it which is the content is as yummy as food or not. The Manga Guide to Statistics giving you information deeper as different ways, you can find any guide out there but there is no publication that similar with The Manga Guide to Statistics. It gives you thrill studying journey, its open up your personal eyes about the thing this happened in the world which is might be can be happened around you. You can bring everywhere like in recreation area, café, or even in your technique home by train. Should you be having difficulties in bringing the paper book maybe the form of The Manga Guide to Statistics in e-book can be your alternative.

Edna McArdle:

Why? Because this The Manga Guide to Statistics is an unordinary book that the inside of the e-book waiting for you to snap this but latter it will shock you with the secret that inside. Reading this book adjacent to it was fantastic author who have write the book in such incredible way makes the content inside of easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you for not hesitating having this any more or you going to regret it. This excellent book will give you a lot of benefits than the other book have such as help improving your expertise and your critical thinking means. So , still want to hold off having that book? If I were you I will go to the e-book store hurriedly.

Michael Stanford:

The Manga Guide to Statistics can be one of your nice books that are good idea. We recommend that straight away because this e-book has good vocabulary that can increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The copy writer giving his/her effort to place every word into satisfaction arrangement in writing The Manga Guide to Statistics however doesn't forget the main position, giving the reader the hottest and also based confirm resource data that maybe you can be one of it. This great information can easily drawn you into brand-new stage of crucial considering.
