Sewing is my mother's favorite hobby. She spent her leisure time sewing old and new clothes. I just observed how happy she is when she is doing the job. I want her to be proud of me that is why I want to learn this hobby also. Glad that I found this book online. This really inspired me a lot in becoming a pro when it comes to sewing. Thanks to the author though for sharing a great masterpiece.

Me and my cousin wants to open a sewing business. We wanted to train our people whose going to work for us in the future. I decided to buy this book to help us train people regarding sewing. We wanted to teach them the simplest way possible, with that said, this book exceeded our expectation and gave us detailed and easy to understand instructions that people can follow easily.

I have been watching my mom sew my ripped shirt, patched up my brother's pants.. make the base of a pillow case from old clothes and it all seem pretty easy to me. Until the time when I have to try it myself .. It was pretty hard! So I gave up on it. But then I saw this book and thought of "why not give it another try?". After purchasing the book, I immediately read it. Now, not noticing I've already repaired a a dozen ripped clothes from the closet without being stressed. Having the work I did, I am absolutely happy with this book.
