Industrial Oil Crops

Industrial Oil Crops

Industrial Oil Crops presents the latest information on important products derived from seed and other plant oils, their quality, the potential environmental benefit, and the latest trends in industrial uses. This book provides a comprehensive view of key oil crops that provide products used for fuel, surfactants, paints and coatings, lubricants, high-value polymers, safe plasticizers and numerous other products, all of which compete effectively with petroleum-derived products for quality and cost. Specific products derived from oil crops are a principle concern, and other fundamental aspects of developing oil crops for industrial uses are also covered. These include improvement through traditional breeding, and molecular, tissue culture and genetic engineering contributions to breeding, as well as practical aspects of what is needed to bring a new or altered crop to market. As such, this book provides a handbook for developing products from renewable resources that can replace those currently derived from petroleum. Led by an international team of expert editors, this book will be a valuable asset for those in product research and development as well as basic plant research related to oil crops.

- Up-to-date review of all the key oilseed crops used primarily for industrial purposes
- Highlights the potential for providing renewable resources to replace petroleum derived products
- Comprehensive chapters on biodiesel and polymer chemistry of seed oil
- Includes chapters on economics of new oilseed crops, emerging oilseed crops, genetic modification and plant tissue culture technology for oilseed improvement

Thus there are a lot of benefits that you will get when one buys this book.

Robert Polk:

As a student exactly feel bored to help reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just very little students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photos on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Industrial Oil Crops can make you experience more interested to read.

Ann Macdonald:
