First volume in the series of an exhaustive study of Genesis. Genesis is the foundation of faith and contains doctrines that are relevant to the modern church. It is the most attacked book of the Bible simply because it is not well understood.

Genesis is a historical account. So this book examines the writing styles of Moses and the extra biblical sources for corresponding evidence. We look at some of the newest ideas on cosmology and creationism.

This volume looks at several questions that come up in the creation account:

Is there Evidence for the Existence of God?

What is the curse of Creation?

How many sins did Adam commit?

Who is Lillith?

Is creation literal or figurative?

What does DNA tell us about creation?

Are we really related to chimpanzees?

There are things in this study you probably never knew or considered before.
