Integrating Economic and Ecological Indicators: Practical Methods for Environmental Policy Analysis

J. Walter Milon, Jason Shogren

Recent international appeals for sustainable development policies have renewed efforts to explore the common ground between economics and ecology. This volume presents a collection of papers from leading researchers around the world, who evaluate the analytical foundations and empirical systems that are being developed to integrate economic and environmental indicators. These specialists identify key data requirements and modeling systems. Economists, ecologists, and policy makers will find this work introducing integrated modeling systems thought-provoking and useful.
