The Doctor Who Franchise: American Influence, Fan Culture and the Spinoffs Lynnette Porter

As Doctor Who nears its 50th anniversary, it is very much a part of British popular culture, and the Doctor has become a British icon. Nevertheless, thanks to BBC America and BBC Worldwide's marketing strategy, as well as the Doctor's and his companions' recent in-person visits to the U.S., the venerable series is becoming more susceptible to an "American influence," including the possibility of becoming "Americanized." Doctor Who and recent spinoffs Torchwood and The Sarah Jane Adventures offer American audiences very different insights into the Whoniverse and have met with varying degrees of success. Whereas Torchwood became a U.S.-U.K. co-production, The Sarah Jane Adventures was largely mismarketed. To complicate matters, the interrelationships that keep the Doctor Who franchise alive through radio dramas, audiobooks, comics, novels, etc., during hiatuses in television broadcasts, may give U.S. and U.K. audiences different understandings of the lead characters--the Doctor, Captain Jack Harkness, and Sarah Jane Smith. Although the past decade has been an exciting time in the Whoniverse, the Doctor--and the franchise--are poised for yet another regeneration.
