Years after he disappeared on the Titanic, one victim's suitcase, having been retrieved from the bottom of the ocean, becomes the ticket to a journey of discovery. Armed with the mementos of a life contained in the suitcase, and the truth they generate as they are plucked from the submerged Titanic, author Enrique Dick embarked on an excursion into his maternal family history, intertwined with both British and Argentine history as the family emigrated from one country to the other. The result is a book that not only uncovers family secrets and historical facts, but also opens a window into lives that impacted history as it was being created.
