This first full length treatment of the role of morality in tourism examines how the tourism encounter is also fundamentally a moral encounter. Drawing upon interdisciplinary perspectives, leading and new authors in the field address topics that range from volunteer tourism to fertility tourism to reveal new insights into the ways tourism encounters are implicated in, and contribute to, broader moral reconfigurations in Western and non-Western contexts. Illustrating the role of power and power relations in tourism encounters within different political, economic, environmental and cultural contexts, the authors in this anthology analyse, theoretically and empirically, the implications of the privileging of some moralities at the expense of others. Key themes include the moral consumption of tourism experiences, embodiment in tourism encounters, environmental moralities as well as methodological aspects of morality in tourism research. Crossing disciplinary and chronological boundaries, *Moral Encounters in Tourism* provides a much-anticipated overview of this new interdisciplinary terrain and offers possible routes for new research on the intersection of morality and tourism studies.'
